THE HISTORY OF THE DE BÜREN FAMILY

Covering over eight centuries of history, the de Büren family saga is replete with passionate tales of soldiers, statesmen, adventurers and artists. From the blood-drenched battlefields of Europe to the steaming jungles of South America, from the fertile pampas of Argentina to California's Central Valley, the tale of the de Bürens reads like a great novel – evoking the grand sweep of history as well as fascinating personal stories. Family heirlooms will be showcased, as well as engravings, drawings, sketches, watercolors and sculpture made by family members during the 18th, 19th and 20th centuries.
